

How to Generate Project Programming Request (PPR) in CTIPS

1) Go into the STIP/TCRP/Bond module in CTIPS, launch your project of interest, and click on the "Make PPR" button under the Project Information tab.

or

2) For batch processing (i.e. multiple PPRs by district, by county, by element, etc.), click on the "Actions" menu item at the top of screen, and then click on "STIP Management", then chose "Generate Project Programming Request".

or

3) If you really can't generate the PPR, call your respective programming liaisons at [Contacts](#).
